

Nikolaos-Antonios Livanos

Managing Director

Since the beginning, General Management, Business Development, Technical Management, Project Management

Nikolaos is the founder and managing director of EMTech. He combines a strong technical background with managerial abilities, being responsible for building and executing the company's business development strategy.

He acts as a project manager, having proven experience in software engineering and software quality assurance space standards. He has a successful track-record of more than fifteen years of technical experience in embedded systems and software engineering. He acquires the qualification of MSc. degree in Electronics and BSc. degree in Physics, and he is currently completing a PhD research.

He loves reading, cycling, and travelling.
